Press Release

Dated: 18th of March, 2023.

Let's Inspire Bihar is all set to celebrate its 2nd foundation day on 22nd of March 2023 in the premises of Urja Bhawan, Patna. *"It is a proud moment for the entire LIB family which started with a vision & mission to inspire Bihar premised on the potentiality of its rich and illustrious heritage"* says its patron Vikas Vaibhav, a senior IPS officer who enjoys a huge popularity among the youth populace.

'Let's Inspire Bihar' campaign whose stated objective is to return towards State's civilizational root of education, egalitarianism & entrepreneurship, is a movement started by Bihar's Senior IPS Officer Vikas Vaibhav, of which more than 55 thousand people have become a part of hitherto. It has more than 950 chapters operating currently, which includes chapters in all major cities of India, 15 foreign chapters, and women chapters in 20 different districts of Bihar, apart from some special chapters dedicated to special causes of the society. The 'Lets Inspire Bihar Youth dialogue' has taken place in 29 districts of Bihar hitherto, where IPS Vikas Vaibhav has himself addressed the youth of these districts on the idea, vision & mission of the movement, and for how its message can be spread in the society.

This campaign officially started on 22nd of March, 2021, in Taramandal auditorium, Patna, where its vision & mission was declared by Mr. Vaibhav himself in the presence of a huge youth gathering. However, the idea for it first emanated in Vaibhav's mind on 12th of January, 2021 on the occasion of Swami Vivekanand Jayanti. During his conversation with young minds from all across Bihar, assembled to listen to him at this occasion in Patna, he felt the need to start this movement. This was the day when a seed was sown in Bihar's civilizational fertile intellectual landscape to revive the land's lost glory. The idea started creating impact with a clear message that change can only happen if common people are ready to embark on the journey to inspire and get inspired in the process. Since this day, its journey has been as energizing as the idea itself.

The different chapters of Lets Inspire Bihar are successfully running and creating a great impact in the society. The Gargi chapter dedicated to spread free of cost education for slum dwelling children through Gargi Pathshala runs 5 centres in Patna itself apart from some chapters in other districts of Bihar. Similarly, Jeevak Chapter provides free of cost health care check-ups and distribution of medicines to the people from underprivileged sections of the society. Likewise, Aryabhata Chapter encourages scientific temperament among the youth populace of Bihar since the very early stage of their life. A special chapter is dedicated to encourage healthy habits and for adopting ecological friendly measures towards our environment. The entrepreneurship chapter makes efforts to connect Start-ups and investors and has already organised 3 Start-ups summit in Bihar at grand scale. Recently a successful event was concluded during Patna Book Fair, 2022, where an 'LIB stall' was established in order to explain people what the idea of Lets Inspire Bihar stands for. Two parallel events were equally successful during the course of this 'Book Fair' - Bihar Heritage Quiz & LIB talk show. Under the banner of LIB talk show, many eminent personalities of Bihar from different fields shared their thought about the Let's Inspire Bihar campaign & the extraordinarily efforts & energy being put into it by its patron Vikas Vaibhav.
